**COUNTDOWN TO ZERO** traces the history of the atomic bomb from its origins to the present state of global affairs: nine nations possessing nuclear weapons capabilities with others racing to join them. The world is held in a delicate balance that could be shattered by an act of terrorism, failed diplomacy, or a simple accident. Featuring an array of important international statesmen, including President Jimmy Carter, Mikhail Gorbachev, Pervez Musharraf and Tony Blair, **COUNTDOWN TO ZERO** makes a compelling case for worldwide nuclear disarmament, an issue more topical than ever with the Obama administration working today to revive this goal.
